CODEX ALIMENTARIUS COMMISSION

International Standards for Food Products

Who Speaks for the U.S.?

U.S. DEPARTMENT OF AGRICULTURE - WASHINGTON, D.C. C&MS - 52 Nov. 1966

CODEX ALIMENTARIUS COMMISSION

What it is

The Codex Alimentarius Commission is an international body operating under the auspices of the United Nations and charged with the responsibility of developing and establishing international standards for foods. The purpose of these food standards is to protect the consumer's health and facilitate world trade. The Commission first met in 1962 under two wings of the United Nations — the World Health Organization and the Food and Agriculture Organization. Any government that is a member of WHO or FAO may send delegates to scheduled meetings.

The standards adopted by the Codex Commission are published in its official publication — Codex Alimentarius — or food code. These standards will provide sellers and buyers around the world with uniform criteria for trading and protect consumers by providing a sound, wholesome product, correctly identified.

The Codex Alimentarius will include standards for all principal foods, whether processed or raw, for distribution to consumers. A Codex Standard for a given commodity is essentially a standard of identity. That is, the standard describes and identifies the commodity for many factors, including its ingredients and, where applicable, residues and additives. The standard further specifies labeling requirements, sampling and testing procedures, and requirements for hygiene, including protective measures and safeguards to assure a sound, wholesome, and marketable product.

Acceptance of Codex Standards by individual countries is strictly voluntary.

Why This is Important to the U.S.

The United States has a vital interest in the standards, both as an exporter and importer. Inter-

national standards could have a marked impact on U.S. shipments both to and from other countries.

It is important for the United States to participate actively in the standards development work of the Codex Alimentarius Commission, seeking wherever possible to have the standards reflect acceptable marketing and manufacturing practices and also good food law regulations.

The Role of the U.S.

Much of the work of the Commission is conducted by a number of committees, each chaired by one of the participating countries. The United States chairs three committees — Food Hygiene, Processed Fruit and Vegetable, and Poultry Meat.

The United States, in addition, sends government delegates and industry advisors to take part in the work of almost all Codex Committees, and in this way has an opportunity to use its extensive experience to help in the establishing of workable definitive standards.

The U.S. Codex contact point for coordinating this work with FAO/WHO and foreign governments is Ralph W. Phillips, Director, International Organizations Staff, U.S. Department of Agriculture.

U.S. participation in the work of the Commission is headed by Codex Coordinator George R. Grange, Deputy Administrator, Marketing Services, Consumer and Marketing Service, U.S. Department of Agriculture. The Assistant Codex Coordinator is Robert F. Anderson, Standardization Branch, Dairy Division, Consumer and Marketing Service, U.S. Department of Agriculture.

U.S. delegates to Codex Alimentarius Commission committees welcome your comments or questions. Subsidiary bodies of the Codex Alimentarius Commission and the delegates include:

Joint FAO/WHO Committee of Government Experts on the Code of Principles Concerning Milk and Milk Products.

Purpose: to recommend standards of composition and standard methods of sampling and analysis for milk and milk products.

U.S. Delegate: F. E. Fenton, Dairy Division Consumer and Marketing Service U.S. Department of Agriculture Room 2959, South Building Washington, D.C. 20250

Codex Committee on Food Additives
Purpose: to establish tolerances for individual

food additives in specific food items.

U.S. Delegate: O. G. Fitzhugh

Division of Toxicological Eval-

Food and Drug Administration Room 5022, FB-8, 200 C St., S.W. Washington, D.C. 20204

Codex Committee on Food Hygiene

Purpose: to develop principles encompassing basic requirements for food plant sanitation, basic principles for handling of food in international trade.

U.S. Delegate: William V. Eisenberg
Food and Drug Administration
Room 3864, FB-8, 200 C St., S.W.
Washington, D.C. 20204

Codex Committee on Food Labeling

Purpose: to draft provisions on labeling applicable to all foods.

U.S. Delegate: J. K. Kirk
Food and Drug Administration
Room 1003, Crystal Plaza No. 6
Arlington, Virginia 20204

Codex Committee on General Principles

Purpose: to define the purpose and scope of the Codex Alimentarius.

U.S. Delegate: George R. Grange

Deputy Administrator, Marketing Services

Consumer and Marketing Service U.S. Department of Agriculture Washington, D.C. 20250

Codex Committee on Methods of Analysis and Sampling

Purpose: to determine the best method of analysis and sampling for the product for which Codex Standards are in preparation.

U.S. Delegate: William Horwitz, Staff Officer
Bureau of Science
ACS, Food and Drug Administration
Washington, D.C.

Codex Committee on Pesticide Residues

Purpose: to recommend international tolerances for pesticide residues in specific food products.

U.S. Delegate: O. G. Fitzhugh
Division of Toxicological
Evaluation
Food and Drug Administration

Room 5022, FB-8, 200 C St., S.W. Washington, D.C. 20204

Codex Committee on Cocoa Products and Chocolate
Purpose: to recommend world standards for
cocoa products and chocolate.

U.S. Delegate: Lowrle M. Beacham, Director
Division of Food Standards and
Additives
Food and Drug Administration

Room 3175, South Agriculture
Building

Codex Committee on Sugars

Purpose: to recommend international standards for all types of carbohydrate sweetening.

U.S. Delegate: John A. Hupfer
ASCS - Farmer Program Division
Direct Payments Branch
U.S. Department of Agriculture
Room 3741, South Building
Washington, D.C. 20250

Codex Committee on Processed Fruits and Vegetables

Purpose: to recommend world standards for all types of processed fruits and vegetables.

U.S. Delegate: Fred Dunn

Fruit and Vegetable Division Consumer and Marketing Service U.S. Department of Agriculture Room 0717, South Building Washington, D.C. 20250

Codex Committee on Fats and Oils

Purpose: to recommend standards for fats and oils of animal, vegetable, and marine origin including margarine and olive

U.S. Delegate: Lawrence Zeleny Grain Division

Consumer and Marketing Service U.S. Department of Agriculture Room 819, Federal Center Bldg. Hyattsville, Maryland 20781

Codex Committee on Meat and Meat Products

Purpose: to recommend standards for classification and grading of carcasses and cuts of beef, lamb, mutton, pork, and veal, and establish definitions, labeling and other requirements for processed meats.

U.S. Delegate: John C. Pierce Livestock Division Consumer and Marketing Service U.S. Department of Agriculture Room 2631,

South Building Washington, D.C. 20250

Codex Committee on Fish and Fishery Products
Purpose: to recommend world-wide standards for
fresh, frozen, or otherwise processed
fish.

U.S. Delegate: Joseph W. Slavin — Room 3351
Bureau of Commercial Fisheries
U.S. Department of the Interior
Washington, D.C. 20240

Codex Committee on Poultry Meat

Purpose: to recommend standards of identity for poultry and poultry meat products.

U.S. Delegate: H. Connor Kennett, Jr.
Poultry Division
Consumer and Marketing Service
U.S. Department of Agriculture
Room 2034, Building D, 7th and
D Sts., S.W.

Codex Committee on Dietetic Foods

Purpose: to develop general guidelines, principles and standards for selected dietetic foods.

Washington, D.C. 20250

U.S. Delegate: Phillip Harris

Food and Drug Administration Room 1840, FB-8,200 C St., S.W. Washington, D.C. 20204

Joint *ECE/Codex Alimentarius Group of Experts on Standardization of Fruit Juices

Purpose: to recommend international standards for fruit juices

U.S. Delegate: Lowrie M. Beacham, Director
Division of Food Standards and
Additives
Food and Drug Administration
Room 3175, South Agriculture

Building Washington, D.C. 20250

Joint *ECE/Codex Alimentarius Group of Experts on Standardization of Quick Frozen Foods

Purpose: to recommend standards for quick frozen foods but not including meat, poultry, fish and fruit juices.

U.S. Delegate: Fred Dunn

Fruit and Vegetable Division Consumer and Marketing Service Room 0717, South Building Washington, D.C. 20250

^{*}ECE - Economic Commission for Europe
